FREQUENCIES 440-462 HOMMAGE A BORIS BLACHER

Duration: 6'45"

This composition was presented as a birthday gift on the 70 years' jubilee of the composer Boris Blacher. The initials of the name, B-B, are translated into frequencies, namely 462-440 equal to b and bb. Other fundamental frequencies have been carefully avoided, except conspicuous harmonies in certain sound complexes.
